About the Author

DITA Open Toolkit - DITA Publishing Engine

<https://www.dita-ot.org/>

- Open source, free to use
- Supported by a small but friendly team of volunteers: https://www.dita-ot.org/who_we_are
- Out of the box support for lots of HTML and PDF based outputs.
- Extendable, allows adding plugins to enhance publishing.

DITA Open Toolkit Day

https://www.oxygenxml.com/events/2019/dita-ot_day.html

Brussels, Belgium, on November 7-8, 2019

All Open Source Publishing Plugins in Oxygen XML GitHub Organization

<https://github.com/search?q=topic%3Adita-ot-plugin+org%3Aoxygenxml&type=Repositories>

- Open source, free to use.

Embed Video/Audio content in DITA topics

<https://github.com/oxygenxml/dita-media-support>

- Embed links to video, audio files and YouTube/Vimeo videos.

Embed HTML Content in DITA Topics

<https://github.com/oxygenxml/dita-embed-html>

- Embed small HTML fragments in DITA topics.

Embed Latex Equations in DITA Topics

<https://github.com/oxygenxml/dita-latex>

- Embed and publish Latex images to HTML based and PDF outputs.

Excel to DITA Tables Dynamic Conversion

<https://github.com/oxygenxml/dita-excel>

- Auto convert referenced Excel spreadsheets to DITA tables.

Generate Graphs From DITA Tables

<https://github.com/oxygenxml/dita-table-svg>

- Dynamically generate graphs in HTML or PDF outputs based on DITA tables.

Float Images In Paragraphs

<https://github.com/oxygenxml/dita-image-float>

- Allow paragraph content to wrap around images.

PDF (XSL-FO based) Output Customizations

- Various PDF customizations we used in Oxygen User's Manual:

<https://github.com/oxygenxml/com.oxygenxml.pdf2.ug>

- Add numbers before topic titles:

<https://github.com/oxygenxml/dita-ot-numbering>

- Specify landscape orientation for certain chapters:

<https://github.com/oxygenxml/dita-classic-pdf-landscape-sample>

Show Change Tracking Insertions/Deletions/Comments in PDF

<https://github.com/oxygenxml/dita-classic-pdf-review>

- Presents change tracking (insertions, deletions and comments) as footnotes in the PDF output.

Create PDF using CSS

<https://github.com/oxygenxml/dita-ot-css-pdf>

- Use CSS to style the DITA content and publish to PDF.

Add Links to Online Editing Tools in HTML and PDF outputs

<https://github.com/oxygenxml/dita-reviewer-links>

- Allow reviewers to give feedback directly on DITA content by following a link.

Export your DITA Content to a Single Merged File

<https://github.com/oxygenxml/dita-merged>

- Create your own statistics.
- Gather some necessary content.
- Export content to some other format.

Export your DITA Content to a ZIP File

<https://github.com/oxygenxml/dita-export-map>

- Create the Zip necessary for translators.
- Apply filters when obtaining the Zip.

Obtaining Metrics for a DITA Project

<https://github.com/oxygenxml/dita-ot-metrics>

- Number of topics and maps.
- Content reuse statistics.
- Used elements and attributes.
- Word count and text related statistics.
- External links.

Metrics Evolution Between Versions

- Fluctuations in number of topics and maps.
- Fluctuations in content reuse.

Useful Publishing Plugins in the DITA OT Registry

<https://www.dita-ot.org/plugins>

- DITA to Word
- DITA to Audio Books
- DITA to Web Slides
- DITA to Morse Code

.....

Other Plugin Ideas:

- Dynamic ASCIIDoc to DITA conversions
- Dynamic JSON to DITA content conversions
- Dynamic source code to DITA documentation conversions

.....

Conclusion

Custom publishing plugins can:

- Add new output formats
- Customize existing output formats
- Dynamically convert content to DITA

Thank You!
